

# Ahmed Saleh

+20 115 164 4301 — [a.saleh.dev@gmail.com](mailto:a.saleh.dev@gmail.com) — [linkedin.com/in/ahmed-saleh-swe/](https://linkedin.com/in/ahmed-saleh-swe/)  
[github.com/AbooSalh](https://github.com/AbooSalh) — [abosaleh.site](https://abosaleh.site)

## Education

**Alamein International University (AIU) — Alexandria, Egypt**

Expected May 2027

*Bachelor of Science (B.Sc.), Computer Science*

- **Coursework:** Data Structures and Algorithms, System Design, Advanced Database Systems, Information Security, Object-Oriented Programming

## Work Experience

**Backend Developer**

Jan 2025 – Present

*Paradise Sharm Tours*

[paradisesharm.com](https://paradisesharm.com)

- Architected and deployed a multi-language tour booking platform using Express.js, MongoDB, and Traefik with automated SSL/TLS, serving 174 MAU across 6 countries (US, EG, IT, IE, SE, UK)
- Built observability stack with Prometheus, Grafana, and k6 stress testing (up to 220 concurrent VUs, 2-hour soak tests) for production monitoring and capacity planning
- Implemented RBAC with JWT refresh tokens, rate limiting, input validation, and automated daily MongoDB backups with 7-day retention to ensure data security and system reliability

## Projects

**E-commerce API** | TypeScript, Node.js, Express, MongoDB, Stripe

[GitHub](#)

- Built a production-ready ecommerce REST API with 8+ modules (products, orders, cart, reviews, coupons) featuring Stripe payment integration with webhook handling and email verification flows
- Implemented BaseController pattern for DRY CRUD operations, JWT authentication with MFA-protected account deletion, and hardened security (Helmet, NoSQL injection protection, HPP, rate limiting, input sanitization)

## Technical Skills

**Languages:** TypeScript, C#, JavaScript, Java, Python, SQL, HTML, CSS

**Backend:** Node.js, Express.js, .NET, ASP.NET, REST APIs

**Databases:** MongoDB, MariaDB, MySQL, PostgreSQL

**DevOps:** Docker, Docker Compose, Traefik, Cloudflare tunnel, Portainer, pnpm monorepo, Bash

**Monitoring:** Prometheus, Grafana, k6, Google Analytics, PostHog, Plerdy

**Quality:** Jest, Supertest, SonarQube, Husky, ESLint, Prettier

## Certifications

**Object-Oriented Programming Using Java** — ITI (Information Technology Institute) — 24 training hours, project-based with HackerRank assessment (Jul-Aug 2025)

## Leadership

**Technical Head**

Apr 2026 – Present

*AIU ICPC Community — Alamein International University (AIU)*

- Architecting and developing a full-stack competitive programming platform for a 600-member ICPC community using Next.js and Node.js, featuring problem archives, live contests with real-time leaderboards, and user rating profiles
